

CHILLED RAIL INSTALLATION INSTRUCTIONS

REQUIRED: TWO PEOPLE, PHILLIPS HEAD SCREW DRIVER.

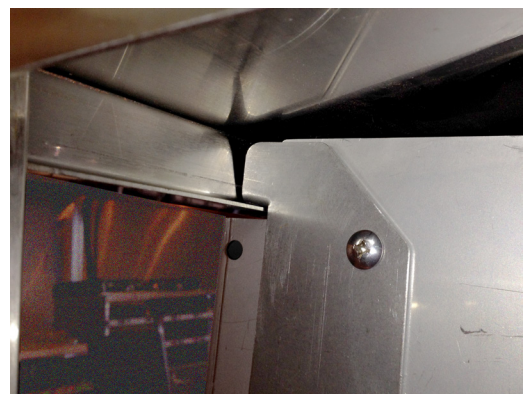

After removing the Chilled Rail from the box, position it under the prep table over-shelf. Make sure the cord can reach the intended power outlet.

Locate the mounting brackets on each end of the rail. Using the Phillips head screw driver, remove 1 bracket from each end of the rail.

Lift the Chilled Rail into position underneath the over-shelf. Tilt the rail so that the mounting bracket fits on the lip of the over-shelf.

Hold the rail flush to the over-shelf and reattach the mounting brackets to each end.

Slide the rail all the way to the end of the over-shelf so the Chilled Rail can be plugged in.

IMPORTANT:

After installing the Chilled Rail, let it sit for 2 hours before powering up.

See daily cleaning procedures (PM card) prior to initial use.
